NOW EVERYONE LOOKS UP TO MADONNA

Art & Sign Productions once again shows off their talent with this rooftop display of Madonna's latest CD, Greatest Hits Volume 2. The display sat atop of Tower Records Sunset location through the month of December 2001. Dimensions: 60' x 80' x 6' tall at highest point.

Art & Sign Just Keeps GROWING and GROWING and GROWING

ART & SIGN IS TAKING DISPLAYS TO A NEW LEVEL

THE BEST IN THE INDUSTRY. Art & Sign Productions stands at the top when it comes to creating large posters, banners, special appearance backdrops and 3D displays. Time and time again, A&S has been rated as the most creative when it comes to decorating the various music stores in L.A. and across the country. Designing a 104' tall LPB (List Post Banner), 39'x37' Backdrops or Complete Custom 3D Displays from a simple CD Cover has never been a problem for the expertise A&S has on staff.

A & S History
From Our Beginnings
To Our Success

Staying On The Cutting Edge Is How We Stay On Top

L-P-Bs (List Post Banners)

Art & Sign Productions, the only company in the industry to create these very efficient, decorative, large format posters called List Post Banners, a.k.a. LPBs. The concept is to use elements taken from a CD cover, book cover or what ever art is given, then to create a poster in one of three sizes:
LPB01: 21'w x 61'h
LPB08: 21'w x 68'h
LPB107: 23.6'w x 107'h
For more information, call 818-507-5887

Shape Up Your Skin for Summer

by Karin Korne

Let's face it, summer is around the corner and it's time to get yourself into summer shape. It's time to show off some tanning skin. That's the catch in for a tanning and tanning to the MedSpa to show up your skin for summer! If you are not you can get the best without any risks to the skin. Technologies in laser hair removal, dermabrasion, chemical facials, medical grade skincare products, sun protection products and mineral makeup!

Look great this summer with the most beautiful skin that will have you looking healthy and beautiful all year long.

4 Weeks to Summer!
Rough, dry skin can be a bummer. Get yourself in the mood for summer by starting out with a skin care regimen of body scrubs, body lotions, hydrating facial oils, and more. Give your skin a little extra love and attention to keep it looking its best. Ask your skin care professionals to recommend a custom service package to help you get summer skin you're proud of.

3 Weeks to Summer!
Indulge yourself in a therapeutic facial that will transport you to tropical getaways – and reward you that summer is on its way! Or, sign up for a package of laser hair removal to ensure smooth, soft, silky legs and bare toes. Don't forget your under arms and forearms.

2 Weeks to Summer!
Smooth your skin. It's a gentle exfoliating treatment such as dermabrasion or a light peel to soften your skin and put your best face forward.

1 Week to Summer!
Go shopping. Be ready to hit the beach in style. What shopping for your new summer gear, check out hats with larger brims and sunglasses with UV protective lenses. You protect your skin from the sun and be the one on the beach!

Less than 1 week to Summer!
Get in the mood. Your face is exposed to the sun's UV rays. It's time you may not realize it, the sun's rays are out there. Get your skin ready for the summer by applying a broad spectrum SPF 30 or higher. They protect your skin from the sun and be the one on the beach!

Start of Summer!
Now you are ready for the beach. Reveal glowing skin this summer with mineral makeup. Mineral makeup is a natural, non-toxic, and safe. It provides a natural SPF 30 or higher. They protect your skin from the sun and be the one on the beach. Don't forget your skin care professionals to recommend a custom service package to help you get summer skin you're proud of.

Be sure to ask your staff to explain proper skin care and mineral makeup application. They will be happy to help you get the most beautiful skin this summer!

LASER TOOLS CO., INC.

Sheave Alignment System with Green Laser Technology™

NEW

"The laser line changes color as you make the adjustments."

- Faster Set-ups
- More Accurate Adjustments
- Less Bearing Wear

Introducing ColorGage™ alignment targets that work in doors or outdoors using enhanced reflective and fluorescent technology. This means that the laser lines can be seen better and adjustments are easier to make.

How it works:
The PowerLine™ sheave alignment tool projects a plane of laser light parallel with the faces of drive and driven sheaves. Adjustable targets attach to sheaves, intersect the laser beam and visually show any misalignment. The colored stripes and reflective green film show the laser alignment line in "Real Time". This is called "Positive Tracking".

- Decrease Vibration - Minimize Belt and Motor Bearing Wear.
- Compact Size - Easy to use on small diameter sheaves.
- 10 Times Brighter - Can be used in direct sunlight
- Use as a laser level - Check the height and flatness of motor and gear box mounting plates.

ORDER NOW TOLL FREE
1.800.598.5973

Specifications: Model GL80 Green Laser Technology™
Sheave Alignment System

Laser: 532nm, Class II, <1mw
Vial: 40 Arc Minute

Evolving your business on the cloud

Dr. Melanie Gregorian, D.C., ART, CKTP

START Life CHIROPRACTIC

818.334.8600
www.StartLifeChiro.com

Biomechanically, spinal dysfunction begins as an injury or stress that causes local muscular hypertonicity, segmental dysfunction and misalignment. This early stage of pathophysiology is ideally aborted with spinal manipulation. The intention of the chiropractic adjustment is to remove any disruptions that may be caused by slight vertebral misalignments that we call subluxations. Later stages involving altered proprioception, muscle weakness and reduced joint mobility are also improved with joint manipulation, exercises and target soft tissue treatment. Dr. Melanie Gregorian is well trained in each of these clinical approaches and specializes in finding the cause of the dysfunction through state-of-the-art ART techniques and Kinesio taping methods to help the body heal more effectively.

Active Release Techniques (ART)®

ART® is a soft tissue management system that effectively treats problems with muscles, tendons, ligaments, fascia and nerves. Headaches, back pain, carpal tunnel syndrome, shin splints, shoulder pain, sciatica, plantar fasciitis, knee problems, and tennis elbow are just a few of the many conditions that can be resolved quickly and permanently with ART. These conditions all have one important thing in common: they are often a result of overused muscles.

How do overuse conditions occur?

Overused muscles (and other soft tissues) change in three important ways:

- acute conditions (pulls, tears, collisions, etc)
- accumulation of small tears (micro-trauma)
- not getting enough oxygen (hypoxia).

Each of these factors can cause your body to produce tough, dense scar tissue in the affected area. This scar tissue binds up and ties down tissues that need to move freely. As scar tissue builds up, muscles become shorter and weaker, tension on tendons causes tendonitis, and nerves can become trapped. This can cause reduced range of motion, loss of strength, and pain. If a nerve is trapped you may also feel tingling, numbness, and weakness. The goal of the Active Release Techniques® is to restore optimal texture, motion, and function of the soft tissue and release any entrapped nerves or blood vessels.

Kinesio Taping

The Kinesio Taping Method is applied over muscles to reduce pain and inflammation, relax overused tired muscles, and to support muscles in movement. Kinesio tape has the ability to re-educate the neuromuscular system, promote good circulation and healing, prevent re-injury and enhance performance. The technique gives the practitioner the ability to provide therapeutic support for the muscle while maintaining full range of motion, enabling the individual to participate in physical activity with functional assistance.

Kinesio® Tex Tape is used to:

- Re-educate the neuromuscular system
- Reduce pain
- Enhance performance
- Prevent injury
- Promote improved circulation and healing

Totally BAMBOO™

The Original Bamboo Cutting Board
& Home Products

Why Bamboo?

Bamboo is 16% harder than maple, making it a superior material for cutting boards & home products. Our unique products are handcrafted using flattened strips laminated together with an approved food grade glue.

Bamboo holds the promise of a sustainable, cost effective alternative to the widespread clearcutting of our world's hard wood forests.

Bamboo is actually a grass that grows to a harvestable height between 3 - 4 years, some species growing up to 2 feet per day. It has an extensive root system that continually sends up new shoots, naturally replenishing itself. It does not require replanting, making it one of the world's most renewable resources.

No old growth forests are touched
No trees are cut
Do the world a favor ... Do Bamboo!
